CARDANO SUMMIT2024

December 2024

XNK will be issued on the Cardano blockchain to expand sales channels

CARDANO

Partner with EMURGO, which aims to popularize the Cardano blockchain globally, to issue the blockchain's first cryptocurrency backed by physical gold. The company will also strengthen sales of XNK, targeting the large Cardano community.

*XNK issued on the Cardano blockchain will not be sold to residents of Japan.

Initial launch by MVP (Minimum Viable Product) (planned)
500,000 USD worth of "ERC-20: XNK" will be burned and an equivalent amount of "Cardano
blockchain: XNK" will be issued

Phase 04

Develop new services to create demand for XNK

We will seek partnerships to develop new services for XNK after 2025.

Services under consideration

1. XNK lending service

This is a service that allows you to earn lending fees in XNK by lending XNK. We aim to overcome the weakness of gold, which does not earn interest, and provide a groundbreaking gold investment service.

2. XNK secured lending service

This is a service that lends crypto assets or fiat currency with XNK as collateral. We aim to provide a service unique to XNK, which has high collateral value backed by 100% gold bullion.
